

# CLASSIFICATION:

AWS5.9: ER 316L DIN: 8556 WK.1.4430

#### **DESCRIPTION:**

SUNMIG 316L is suitable for welding of similar t types 316 and 317 stainless steels. The molybdenum vastly improves the resistance of pitting corroision, particularly in chloride solutions and the low carbon grades further improves resistance to intergranular corrosion.

### TYPICAL ALL WELD METAL PROPERTIES:

| Chemical Composition (%) |           |    |         |  |
|--------------------------|-----------|----|---------|--|
| С                        | 0.03      | Mn | 1.0-2.5 |  |
| Si                       | 0.30-0.65 | S  | 0.03    |  |
| P                        | 0.03      | Cr | 18-20   |  |
| Ni                       | 11.0-14.0 | Мо | 2.0-3.0 |  |

### TYPICAL APPLICATIONS:

Similar types 316 and 317 grade stainless steels.

## PACKING DATA:

| Size | Packaging Per | Winding        |  |
|------|---------------|----------------|--|
| (mm) | Carton        |                |  |
| 0.8  | 12.5 Kg       | Layer to Layer |  |
| 1.00 | 12.5 Kg       | Layer to Layer |  |
| 1.20 | 12.5 Kg       | Layer to Layer |  |
| 1.60 | 12.5 Kg       | Layer to Layer |  |

#### PACKING:

Wires are packed in Plastic Spools weight 12.5 Kg Per Spool. For exports spools are further packed in Wooden or MS pallets weighting 1 Mt Each
